

09 Early years practice procedures

09.10 Prime times – Rest time

Although the preschool does not have a designated sleep time, children may require a rest or sleep if showing signs of tiredness.

Young children

- Young children sleep on rest mats.
- Nappies are changed and heavier clothing is removed.
- Hair accessories with parts that may come lose or detached and pose a choking hazard are removed before sleep/rest time.
- A separate area of the room is made as quiet as possible, perhaps with some soft music playing and curtains drawn.
- Young children are settled by their key person. They are soothed to sleep. Key persons may stroke or very gently pat children.
- Sleeping children are supervised within sight and/or hearing of staff at all times.
